Transcriptional profiling of mouse liver 10X increased gene expression comparing BIOIO-1001 to vehicle (69 genes out of 40,824)

Top gene ontology (GO) categories	fold enriched	pval
fatty acid metabolic process (GO:0006631)	7.59	4.2E-5
response to stilbenoid, resveratrol (GO:0035634, GO:1904638)	31.02	4.1E-3
